

North American Approvals –

UL Listed  and UL Recognised Products 

Multiflex Consulting ApS tlf.: 5332 7083

Flexicon have developed a range of products and solutions for installations which require either UL “Listing” or “Recognition” approvals. In North America, and sometimes the rest of the World, compliance with UL (Underwriters Laboratories) is a fundamental requirement.

UL standards are exacting and rigorous, with full transparency listed through the UL website. UL Representatives audit factories on a regular basis and any Manufacturers making claims regarding a product being “Listed” or “Recognised” can be verified by visiting the UL website.

Other standards include NFPA 70, also called the National Electrical Code, are the wiring rules for general wiring, and NFPA 79 is the Electrical Standard for Industrial Machinery.

UL Recognised

UL Recognised approval is applicable to a component or raw material that is to be incorporated into a piece of finished equipment that will itself be UL Listed.

UL Listed Products

UL Listed approval is applicable to a finished product that will be used in its own right.

Flexicon can offer both Non-metallic and metallic solutions where UL Listed is a requirement.

UL 514B Listed Conduit Fittings

Flexicon have the following conduit fittings ranges UL Listed to UL514B.

LTP-CUL

FPAX

Ultra™
